Tensions

The stakes are riding high, and in the blue haze of the smoke-filled back-room, you push another "chip" across the table. Beads of sweat break out on your opponents' foreheads and a convulsive twitch betrays one player's frayed nerves. The piano-player slides into a deliciously voluptuous blues. And that's when SHE glides into the room, dripping sheer sensuality, swaying slinkily right up to you. Stay cool !

Tensions is an animated-graphics poker game, incorporating six players, each using different strategies, and a stripper so seductive you'll start steaming !
